About Profile

Our company is seeking an Angular Developer who has the technical ability to implement user interfaces using JavaScript and the Angular framework. You will need to know the best practices and modern ways of creating interfaces and ensure the interface is able to interact with backend APIs. You will also need to have great collaboration skills as you will need to interact with fellow frontend and backend developers regularly to ensure components can be integrated together.

Roles and Responsibilities

- Responsible for designing and developing user interfaces using Angular best practices.
- Adapting interface for modern internet applications using the latest front-end technologies.
- Responsible for complex frontend development tasks including custom module development.
- Writing JavaScript, CSS, and HTML

tomorrow's tech, today.

- Developing application codes and unit tests in Angular, Javascript Technologies, and Rest Web Services.
- The Frontend Developer would work closely with Visual Designers and Backend Developers to build highly efficient, user-friendly, interfaces in Angular.
- Responsible for application performance through JavaScript profiling and code optimization.

Skill (Tech & Functional)

- Experience working with AngularJS (HTML/ CSS/ Javascript/ Bootstrap/ JQuery/ HTML5/ CSS3/ AngularJS/ Angular 2/ Angular 4/ Angular 5/ Angular 6/ Angular 7/ Angular 8/ Angular.JS)
- Experience interacting with RESTful APIs and formats (JSON, XML) and GraphQL and WebSockets.
- Proficient in CSS, HTML, and writing cross-browser compatible code.
- Experience using JavaScript building tools like Gulp or Grunt.
- Knowledge of JavaScript MV-VM/MVC frameworks including Angular.
- Strong communication skills, team player and strong attention to details.
- Understand how back-end applications work.
- Understanding of SEO and accessibility and how they relate to development.
- Proven experience implementing front-end and back-end JavaScript applications.
- Experience in the concepts of code repositories (Preference GIT) and be able to commit code

Qualification & Experience

- 2-5 years of relevant career experience.
- Previous work experience as an Angular Developer.
